

Welcome to Aalmir Plastic Industries Website

Hello and thank you for visiting Aalmir Plastic Industries Online.
Please feel free to browse around and explore the services and products that we offer.

Aalmir Plastic Industries is a plastic manufacturing company that has been operating in the UAE and neighboring countries for the past 20 years. The company started off initially with Blow molding Lines and has since expanded its services to Injection Molding, Thermoforming, Various Film and Extrusion Lines. Our strict no quality compromise policy is the main reason behind our success. The company has won the prestigious chamber of commerce "award for excellence" twice in a row. Today , Aalmir Plastic Industries manufactures plastic products for a variety of industries ranging from Automobile, Electronics, IT, Medical, Waste Management, Engineering, Construction, Aviation, Marine, Household Consumer, Retail, Oil & Gas, Design and Packaging Industries. We also have an intricate network of international partners which allow us to enter foreign markets and supply to the international market.

As of now, Aalmir Plastic Industries has served over 1700 clients ranging from 37 countries.
We Design Develop And Manufacture Plastic Items For Various Industries As Per Customer Requirements
